

Oxen Pearl Luster Pigments

Cosmetics Grade
2025

HEBEI OXEN NEW MATERIALS CO., LTD.

河北欧克新型材料股份有限公司

Company Profile

Oxen is one of the leading professional manufacturers of Pearl Luster Pigments. Established in 1999, the headquarter is local in Langfang Economic & Technical Development Zone, Hebei Province, P.R.China. Located only 40km to Beijing, and 70km to Tianjin, leads to transportation convenience of both airline and sea shipping. Oxen possesses the modern factory including a GMP standard workshop where cosmetics grade products are produced. The annual capacity is about 5000 tons.

Since Mid. of Mar. 2024, Oxen join Shinemax Advanced Materials Co., Ltd. which has the business covering performance, function, and effect materials, supplying the service from materials, finishing & end color effects. The materials researched and developed ranges include mica, synthetic mica, aluminium, copper, silver, carbon grid composite and graphite-graphene super skeleton, etc.

Benefit from long term close cooperation with universities & research institutes, R&D of Oxen keeps developing new innovation colors to meet market requirements. At present, there are more than 18 series and over 500 colors are widely welcome. Oxen New Materials has set up two independent product ranges. Industrial Grade covers the application of industrial fields such as coatings, printing inks, plastics and master batches, synthetic leather, speciality paper, etc. Meanwhile, Cosmetics Grade covers the application of make up, personal care, especially the lip sticks, lip gloss, pressed powder, eye shadow, nail polish, etc. More than half of the output of Oxen are exported to global market with good brand reputation. Oxen is committed to effect colors which enhance the customers' products more successful by professionally & sincerely cooperation.

Surface Treated Pearl Luster Pigments with Excellent Performance

- ☆ Good adhesion, transparency and spread ability, soft smooth skin feeling.
- ☆ Easily dispersing in oil and good compatibility in formulations.
- ☆ Lower oil absorption value compared with untreated powder.
- ☆ Improving the resistance to fracture of pressed powder.

Codes	Color	Particle Size (um)	Surface Treated Method
OPA110AS	Fine Silver White	5-15	Triethoxycaprylsilane
OPA205AS	Interference Gold	10-60	Triethoxycaprylsilane
OPA389AS	Bright Khaki	10-60	Triethoxycaprylsilane

Cosmetic Grade Powders & Surface Treated Powders

- ☆ Mica Powders
- ☆ Sericite Powders
- ☆ Silicon Powders
- ☆ Synthetic Mica Powders

For detailed information of above powders, or special surface treated powders, welcome to contact us.

Application of Oxen Pearl Luster Pigments

Oxen Pearl Lustre Pigments are widely used in cosmetics and personal cares:

- ☆ Lipstick / Lip gloss
- ☆ Eye shadow / Eyebrow pencil / Eyeliner pencil
- ☆ Nail Polish
- ☆ Foundation / Compressed foundation / Stick foundation
- ☆ Personal care: liquid shampoo, hair condition, liquid soap, facial cleaner, lotion, facial mask, etc.
